FOR IMMEDIATE RELEASE
March 2, 2015

MOLDTRONICS, INC ACHIEVES AS9100C CERTIFICATION

Downers Grove, IL, March 2, 2015– In February, 2015 Moldtronics, Inc. joined a short list of small business manufacturers certified to AS9100C. Moldtronics, Inc. specializes in mold design, injection molding, machining and manufacturing services for the aerospace, defense, and commercial industries.

Over the past ten months, the team at Moldtronics has been working toward an upgrade from ISO9001:2008 to AS9100C Full Design Standard as one of many steps being taken to increase productivity and growth for the molding and machining company. The team realized their goal by successfully completing an audit conducted by Perry Johnson Registrars, Inc., an ANAB accredited company in December 2014.

Pairing this certification with top tier rankings, including “Mechanical Supplier of the Year 2014” within its top customers, Moldtronics plans to continue to establish itself as a contender in its market.

If you would like more information about this topic, please contact Russell H. Schmidt at (630)968-7000 or email at sales@moldtronics.com.
